OVER THERE

arines are deployed around the world, constantly training for any contingency. In Iraq and Afghanistan, there are Marines providing support for humanitarian efforts and there are Marines training in Korea, Philippines and many other places—over there.

Soto Cano, -- Honduras

arines assigned to Small Craft Company based at Camp Lejeune, N.C., practice hand-to-hand maneuvers Nov. 14. More than 30 Marines from the company deployed to the Central American country during late May and are scheduled to return later this year. They are here aiding JTF-B's mission of supporting U.S. joint, combined and interagency operations.

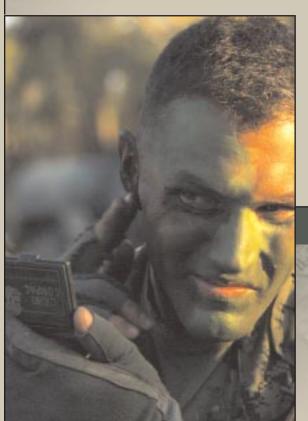

Shoalwater Bay Training Area,

Australia

arines from 2nd Battalion, 3rd Marine Regiment, make contact with enemy forces during exercise Crocodile 2003. Exercise Crocodile 2003 is the major training activity for the Australian Defence Force for the year, and involves more than 6,500 ADF personnel, as well as approximately 2,600 U.S. personnel.

gt. Pedrano Royigel, from Salinas, Calif., a Marine with the 13th Expeditionary Unit (Special Operations Capable) and Expeditionary Strike Group One, provides security in Abu Al Aseem while medical personnel deliver medicine and medical supplies to the local hospital, Oct. 21. ESG-1 is a flexible Naval force that can operate in shallow, narrow waterways or the open ocean, day and night, in all weather conditions in support of Marine or joint forces operating in near-shore regions or deep inland. Its essential elements are mobility, agility and lethality, giving a regional or combatant commander the flexibility to conduct operations across the spectrum of conflict in more dynamic environments.
